

IGIENIX X-TREME SPRAY

Cleaner for interior and exterior wall surfaces attacked by mould and algae.
To be used as Phase 1 in the treatment of mould and algae with the Igienix X-Treme cycle.
Cleans and cleanses walls with fast action. Temporary effect when applied on small surfaces to restore the original appearance, but without overpainting.

Colour	Transparent
Packaging	0,5 litres, sprayer

Product characteristics

Composition	Based on active chlorine and specific additives to cleanse the surfaces from mould and algae. Reg. (CE) 648/2004 Composition: 5-15% chlorine bleach.
Average specific weight	1,010 kg/l
Indicative performance	6 - 4 sq./l per coat
Film aspect	Transparent

Application instructions

Application	Spray
Dilution	Ready to use
Cleaning of equipment	With water immediately after use

Application systems

Apply Igienix X-Treme Spray generously on the polluted surfaces at a distance of about 10 cm. Leave on for at least 10 minutes and if necessary, repeat the operation until the surfaces are completely whitened. Leave on for at least 30 minutes and carry out abundant washing or rinsing with water. Wait until surfaces are completely dry before proceeding with Igienix X-Treme Detergente.

Storage

Storage the product at temperatures between +5°C and +30°C. The product should preferably be used within 2 years from the date of manufacture if stored in the original unopened containers and under appropriate temperature conditions. Keep the container in a cool place; storing the product at high temperatures may cause the packaging to swell, so be careful when opening the package.

Safety instructions

Not covered by Legislative Decree 161/2006 (Dir. 2004/42/EC). Causes severe skin burns and eye damage. May irritate the respiratory tract. Very toxic to aquatic organisms. Toxic to aquatic organisms with long lasting effects. May be corrosive to metals. Caution! Do not use in combination with other products. Dangerous gases (chlorine) may be released. Contact with acids liberates toxic gases. The product must be transported, used and stored according to current hygiene and safety regulations; after use, do not dispose of containers in the environment, allow residues to dry completely and treat as special waste. For further information, see safety data sheet.
